Activity Course: No
CIP Code: 12.0410
Assessment Mode: Portfolio
Semester Taught: Upon Request
GE Category: None
Separate Lab: No
Awareness Course: No
Intensive Writing Course: No

Prerequisites
COS 127 or concurrent enrollment in COS 127

Educational Value
Provides knowledge of cosmetology, at an advanced level, for those preparing to become a licensed manicurist.

Description
Third course for students seeking a manicuring license. Emphasis is on advanced skill building in areas covered in Manicuring I and II, product chemistry, anatomy and physiology, the nail and its disorders, the skin and its disorders, and client consultation.

Supplies
Student nail kit
Competencies and Performance Standards

1. Perform manicuring services at an advanced level.
   
   **Learning objectives**
   
   *What you will learn as you master the competency:*
   
   a. Perform the steps in pre-service.
   b. Perform a variety of manicuring techniques.
   c. Perform nail repair techniques.
   
   **Performance Standards**
   
   *Competence will be demonstrated:*
   
   o during supervised practicals
   o on the clinic floor
   o in completion of Phase II Exams
   
   *Criteria - Performance will be satisfactory when:*
   
   o learner performs the steps in pre-service
   o learner performs a variety of manicuring techniques
   o learner performs nail repair techniques

2. Describe characteristics of salon products.
   
   **Learning objectives**
   
   *What you will learn as you master the competency:*
   
   a. Identify ingredients of salon products.
   b. Explain the chemistry of salon products.
   c. Describe the proper use and storage of salon products.
   
   **Performance Standards**
   
   *Competence will be demonstrated:*
   
   o during supervised practicals
   o on the clinic floor
   o in completion of Phase II Exams
   
   *Criteria - Performance will be satisfactory when:*
   
   o learner identifies ingredients of salon products
   o learner explains the chemistry of salon products
   o learner describes the proper use and storage of salon products

3. Describe anatomy and physiology concepts that relate to manicuring.
   
   **Learning objectives**
   
   *What you will learn as you master the competency:*
   
   a. Explain how knowledge of anatomy and physiology better prepares nail technicians.
   b. Relate study of cells, body tissue, organs, and blood functions to manicuring.
   c. Relate study of metabolism, muscle stimulation, and the nervous system to manicuring.
Performance Standards

Competence will be demonstrated:
- during supervised practicals
- on the clinic floor
- in completion of Phase II Exams

Criteria - Performance will be satisfactory when:
- learner explains how knowledge of anatomy and physiology better prepares nail technicians
- learner relates study of cells, body tissue, organs, and blood functions to manicuring
- learner relates study of metabolism, muscle stimulation, and the nervous system to manicuring

4. Explain how to deal with nail and skin disorders.

Learning objectives
What you will learn as you master the competency:

a. Identify the parts of a nail.
b. Describe disorders of the nail.
c. Describe the golden rule for dealing with nail disorders.
d. Distinguish between nail disorders that can be serious and those that cannot.
e. Recognize healthy skin and how to nourish it.

Performance Standards

Competence will be demonstrated:
- during supervised practicals
- on the clinic floor
- in completion of Phase II Exams

Criteria - Performance will be satisfactory when:
- learner identifies the parts of a nail
- learner describes disorders of the nail
- learner describes the golden rule for dealing with nail disorders
- learner distinguishes between nail disorders that can be serious and those that cannot
- learner recognizes healthy skin and how to nourish it

5. Perform client consultations.

Learning objectives
What you will learn as you master the competency:

a. Describe consultation procedures for a variety of scenarios.
b. Explain how to refer a client to a physician.
c. Explain how to obtain client information for the health/record card.
d. Explain the importance of healthy looking nails to clients.

Performance Standards

Competence will be demonstrated:
- during supervised practicals
on the clinic floor
in completion of Phase II Exams

Criteria - Performance will be satisfactory when:
o learner describes consultation procedures for a variety of scenarios
o learner explains how to refer a client to a physician
o learner explains how to obtain client information for the health/record card
o learner explains the importance of healthy looking nails to clients

Types of Instruction
Classroom instruction
Demonstration
Supervised practicals
Actual work experience

Grading Information
Grading Rationale
Customer service skill  33.3%
Performance/technical skill  33.3%
Clinic work  33.3%

Grading Scale
A  90% - 100%
B  80% - 89%
C  70% - 79%
D  60% - 69%
F  Below 59%
